

Overview on the Finnish National Action Plan

Youth in implementing UNSCR 2250

2250 in Finland - a brief history

history -2250 Task Force was 2250 Network is Wide national created established to Finnish civil society - Youth organisations consultations to support the participate in workshops, organisations initiate the provide the youth planning and national global 2250 process consultations of draft perspective implementation NAP 2018/2019 2011 2016 2020 2021 2019 2015 2018 UNSCR 2250 is 04/2018 Foreign First 2250 Youth minister adopted Symposium in YPS NAP announces that Helsinki national launch in Finland will have August 2021 NAP in the Gov't the first NAP Programme

Youth, Peace and Security Network

- Created to support UNSCR 2250 National Action Plan in Finland
- Open for everyone interested in peace & security topics
- Consists of both organizations working in the field as well as individual youth interested in the topic
- Coordination shared between Allianssi (National Youth Council of Finland) and UN Youth of Finland
- Sharing news on what's happening, co-operating in promotion of the agenda and advocacy, raising awareness of the agenda and promoting youth participation

The role of YPS Network in the NAP creation process

- Active and timely communication with the Ministry for Foreign Affairs of Finland
- Communication to the wider public on 2250 and the NAP process invitations to join
- Strong collaboration in the creation of the NAP:
 - Wide national consultations to provide youth perspective and basis for the NAP draft, 2018-2019
 - Workshops and hearings among the youth and NGOs to draft guidelines and recommendations for ForMin, 2020
 - Comments on the NAP drafts
- Awareness raising and promotion of the UNSCR and the NAP

Youth, Peace and Security: Finland's National Action Plan 2021–2024

- •World's first NAP!
- Published in Finnish, Swedish and English on 20 August 2021
- •https://julkaisut.valtioneuvosto.fi/handle/ 10024/163334

NAP

- Intersectionality as cross-cutting principle
- 5 priority areas and objectives
 - Each objective has 2-4 targets
 - Measures and responsibilities for each target
- Implementation
 - Inter-ministerial responsibilities
 - Civil society's role
 - National Monitoring Group and indicator working group
 - Mid-term and final period evaluation

- Still have an important role in monitoring and advancing implementation
- Also important role in securing political support (funding!) for the agenda
- Trickle-down effect on the NAP in promoting youth participation more broadly -> Ensuring meaningful and accessible youth participation

Discuss in groups:

- How familiar are you with the Finnish NAP and this particular priority area?
- Are the targets and measures of each priority area clear and serve the purpose? Is there something that sparks questions?
- What concrete action/cooperation/youth involvement etc. would you like to see for these targets to fulfill? How could you act on it?

Joint discussion:

- How would you like to work for the resolution yourself?
- Is the Finnish NAP transmittable to other countries? Why/why not?
- Could you see these objectives and targets being implemented in your country? How? How could you work for it either by yourself or by cooperation?
